

CFI Open Forum (All Pilots Are Invited)

We will discuss things to keep in mind while you are instructing and flying. The importance of continuing education, our responsibilities as role models, codes of conduct and hazardous attitudes encountered in pilots and students. Ever find the electronic cockpits confusing? Ever wish you had the "steam gauges" back instead of the "magic"? Our discussion will center around the instruction you should provide when talking about automation and flight management systems.

Directions: From I-5 north or south follow the signs to Boeing Field. The Boeing Field Main Terminal Building is on the East side of the airport, about mid-field. Enter through the main doors and turn left. The conference room is the first room on the left.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
